

Lilly Cares® Foundation

2022

Annual Report

“

I am a disabled, retired first-responder and am on a fixed income. **Thank you so much for your kindness and generosity** in giving me my Trulicity® for the next 12 months!

In 2022 the Lilly Cares® Foundation (Lilly Cares) provided more than 217,000 patients in the U.S. prescribed Eli Lilly and Company (Lilly) medication at no cost through the Lilly Cares Patient Assistance Program (PAP).

2022 was a milestone year for Lilly Cares as we crossed the 200K patient mark, which is nearly double the number of patients we served annually only five years ago, and a 26 percent increase from 2021. Nearly 167,000, or 77 percent of the patients supported by Lilly Cares in 2022 received medication for diabetes, and 17 percent of Lilly Cares patients are receiving more than one donated Lilly medication. The free medication the foundation provided to the increasing number of qualifying patients in 2022 was valued at \$3.4 billion.

While we continue to see year-over-year growth in the number of patients served by Lilly Cares, we remain fully committed to improving operational efficiency and applicant experience. In 2022, we made enhancements to the Medicare Part D enrollment process by initiating annual re-enrollment for patients in October to ease the year-end rush. We've also made a change to our process so Medicare Part D patients, who enroll for the first time towards the end of the calendar year, can be enrolled through the following calendar year avoiding the need to immediately re-apply to the program.

Our new income verification process, initiated in 2021, has proven to be an effective solution to more efficiently intake

Lilly Cares PAP patients. Since implementation, well over 200,000 applicants benefited from no longer needing to find and submit documentation to provide proof of their income with their initial application. Instead, a third-party consumer reporting agency is able to quickly validate most applicant's household income. This process enhancement has improved consistency and generally accelerated the speed of enrollments.

I am incredibly proud of all we've accomplished in 2022, but there is more work to be done. Staying true to our core value of having patients at the center of all we do, we are planning for more process improvements and operational efficiencies in 2023, focusing on consolidating our pharmacy operations to streamline prescription processing and timely medication delivery. I hope that you find this annual report helpful and informative. Please visit www.lillycares.com for more information about Lilly Cares.

Irma E. Tragesser

President, Lilly Cares Foundation

A photograph of a woman with short, dark brown hair, wearing a purple sleeveless top, smiling warmly as she holds a baby. The baby is wearing a light yellow shirt and white diaper, looking towards the camera with a happy expression. The background is a soft, out-of-focus green, suggesting an outdoor setting. The woman has a gold earring, a silver watch on her left wrist, and a ring on her left hand.

“

I have suffered for years with advanced osteoporosis. **Without your program, I would not be able to afford this life-changing medication.** You've helped make it possible for me to play with and enjoy my first grandchild. Thank you so much for helping me and many others!

2022 LILLY CARES IMPACT

217,000+ TOTAL PATIENTS SERVED

5,000+

Patients provided **Pain** medications

~8,000

Patients provided **Cancer** medications

Patients provided **Diabetes** medications

17% of enrolled patients were able to receive multiple medications from Lilly Cares at no cost. **More than 8,000 patients** in need received at least **3 prescribed medications**.

\$3.4+ BILLION IN MEDICATIONS PROVIDED

“

For the past three years, with the help of my wife, my endocrinologist and your program, I have been successful in dealing with my diabetes.

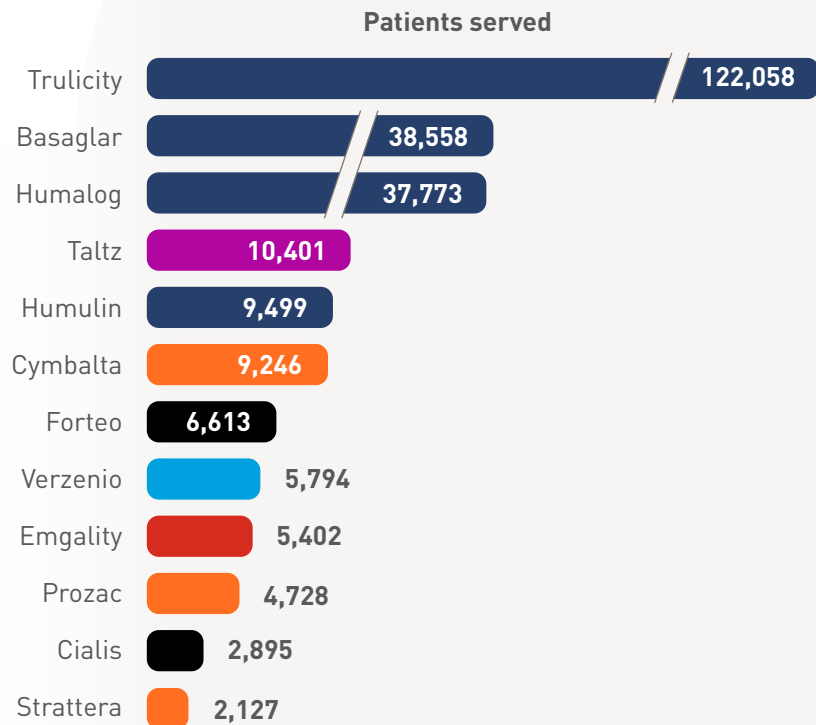

This past week, I was awakened by the front doorbell to find an insulated shipping box containing a three-month supply of Trulicity. And, it had been snowing and dumping freezing rain in our area for nearly two days and nights!

I wish to thank your organization and the delivery driver for providing such marvelous service. I greatly appreciate it!”

2022 LILLY CARES IMPACT, CONTINUED

HIGHEST REQUESTED MEDICATIONS

State-level numbers regarding patients served through Lilly Cares in 2022 can be found on [lillycares.com/resources](https://www.lillycares.com/resources) under Lilly Cares News and Reports.
