

2024 ANNUAL REPORT

Lilly Cares[®] Foundation

In 2024, the Lilly Cares Foundation had the continued privilege of making a significant impact on patients' lives, especially as many low-income Americans faced increased economic hardships.

We were proud to provide nearly 165,000 eligible patients free donated Eli Lilly and Company (Lilly) medications, ensuring they received the treatments they needed without financial burden.

This year, Lilly Cares Foundation was able to add Lilly medications to treat Alzheimer's Disease (Kisunla™) and atopic dermatitis (Ebglyss®), expanding support to more patients with critical health needs.

The free medicines provided to patients this year through the Lilly Cares Foundation are valued at more than \$3.7 billion, reflecting our strong commitment to patient care. We are excited to continue being a reliable source of support, ensuring financial stress does not stand in the way of patients receiving the medicines they need.

Behind every patient we serve, there is a story of strength and resilience. It is these stories that drive us to do our best work and remind us of the importance of our mission.

I hope you find this annual report helpful and informative. Please visit www.lillycares.com for more information about Lilly Cares Foundation.

A handwritten signature in blue ink that reads "Irma E. Tragesser". The signature is fluid and cursive, with the first letters of each word being capitalized.

Irma Tragesser
President, Lilly Cares Foundation

“

Your support is forever remembered with thanks. I've known Verzenio is helping me have another new day over and over again.

When I needed help, you gave it.

“
